Skilled .NET Developer proficient in utilizing Entity Framework and Entity Framework Core to streamline database operations and enhance application performance. Experienced in developing scalable and efficient solutions leveraging the power of these frameworks. Expertise includes database design, query optimization, and data access layer development. Adept at collaborating with cross-functional teams to deliver high-quality software solutions meeting client requirements and industry standards."

Bechelor's in Computer Science
University of Swat

School Management System 10/2023 - 11/2023

School Management System:
Developed a web application using ASP.NET MVC for managing student information, attendance, grades, and staff administration. Enhanced school operations with an intuitive interface for all stakeholders.

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

Online Diagnostic Lab System:	11/2023 - 11/2023
-------------------------------	-------------------

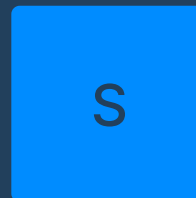

Created an ASP.NET MVC web app to streamline diagnostic testing, allowing users to schedule appointments, submit samples, and access results online. Integrated real-time notifications for efficient healthcare services.

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

Expense Tracker Project: 03/2024 - 03/2024

Built an ASP.NET Core MVC web application to manage expenses, track spending, and set budgets. Features include personalized dashboards and interactive charts for a secure and reliable financial management experience.

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

Front End Developer

03/2024 - 05/2024 Lahore
